

## Product information

# Booster Injector Cleaner Petrol

**Booster Injector Cleaner Petrol** is developed to clean and keep injectors, carburetors and the entire gasoline supply system in optimal condition.

### APPLICATION

**Booster Injector Cleaner Petrol** contains a blend of solvents and ash less detergents which act to clean and maintain the cleanliness of port injector nozzles and other fuel system components. Dispersant Water Dissolving Agents in Injector Cleaner completely disperse small amounts of water in fuel allowing its passage through filters, also preventing it from forming ice in fuel lines and keeping water in fuel tanks to a minimum. Corrosion inhibitors in Booster Injector Cleaner Petrol protect injector tips and other fuel system parts from excessive corrosion.

### PROPERTIES

- Cleans injectors, carburetors and the entire gasoline supply system and keeps them in optimal condition
- Eliminates valve sticking
- Prevents deposits of gums, varnish and sludge
- Reduces gasoline consumption and protects against corrosion
- Reduces emission of hazardous exhaust gases
- Eliminates rough idling, hesitation or knocking
- Improves combustion and driveability

### TYPICALS

Color	Transperant
Density at 15°C g/ml	0,800
Flash Point °C	62
Ignition temperature °C`	>200

### INSTRUCTION FOR USE

Pour the contents of one bottle in the fuel tank before filling it with gasoline. One bottle treats 40 to 60 liters of gasoline.

Normal use:	one bottle every 2.000 km
Intensive or sportive use:	one bottle for each tank filling

### CAUTION

Before use, read carefully safety instructions on packaging or on safety data sheet.
